# Trinity Health Fact Sheet

## Mission

Trinity Health is committed to preserving and improving the quality of health to the people we serve.

Our mission is to excel at meeting the needs of the whole person through the provision of quality healthcare and health related services.

## Vision

Trinity Hospital will be recognized as the preferred regional healthcare provider. Trinity Hospital will achieve and sustain excellence by:

- Being futuristic and proactive in continuous performance improvements.
- Exceeding professional quality standards and customer expectations.
- Providing sensitivity in service delivery and excellence in skills.
- Efficient utilization of resources.

## Values

Committed to the continuous improvement of quality, the employees, medical staff, board of directors and volunteers of Trinity Health uphold the following values:

- **INTEGRITY:** A personal belief that as individuals we uphold our principles and conduct ourselves with honor.
- **PASSION:** Personal commitment to make a difference in providing care for others.
- **ACCOUNTABILITY:** In recognizing our responsibilities we will be accountable for all that we do.
- **RESPECT:** A regard for the uniqueness of the human spirit and the dignity of others.
- **TEAMWORK:** Recognizing the value in and contribution from each part of the whole.

## The Region's Premier Health System

Trinity Health is a nonprofit, integrated healthcare system serving northwest/central North Dakota and Eastern Montana. With a tertiary care hospital in Minot, close to a dozen rural health clinics and a long-term care facility, Trinity provides a full complement of healthcare services to the region. Trinity serves as a referral center for the following services: heart, neuro, general and robotic surgery, cancer and cardiac care, ophthalmology and retinal surgery, kidney dialysis, advanced diagnostics, newborn intensive care, orthopedics, sports medicine, trauma, inpatient rehabilitation, and behavioral health. Trinity's NorthStar Criticair helicopter provides critical care transport within a 150-mile radius of Trinity Hospital, a verified Level 2 Trauma Center.

## Hospital Facilities

### Trinity Hospital (251 licensed beds)

### Minot YMCA

Trinity Health Exercise Physiology

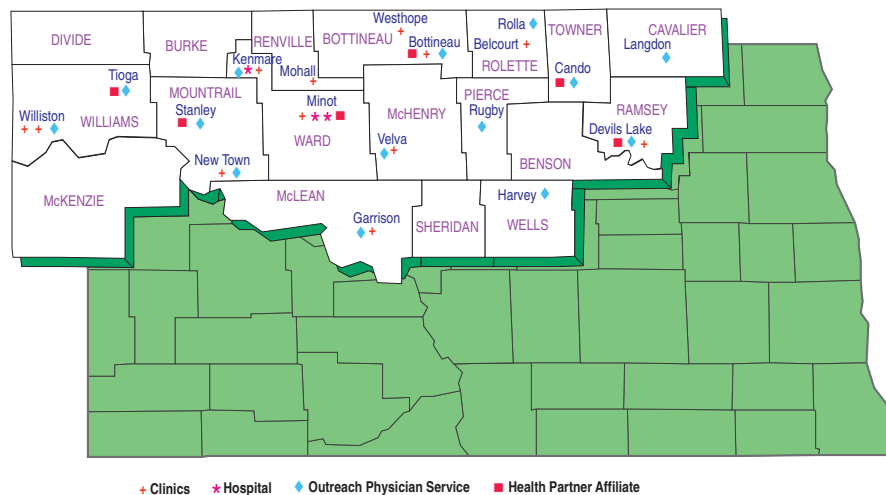

## Trinity's Story

The earliest pages of Trinity's story were written in the churches that dotted northwest North Dakota during the late 19th Century. These church leaders long dreamed of a hospital to serve the needs of the Northwest Territory and beyond. During the early 1920s, a group of pastors sketched out plans for a hospital Consecrated To Christian Service in the "Name of The Father, Son, and Holy Ghost" hence the name "Trinity." On April 25, 1922, representatives from churches across the territory gathered at Zion Lutheran Church in Minot to organize the Trinity Hospital Association. Within weeks, ground was broken and \$60,000 was raised for the building of a 30-bed hospital unit, the lower west wing of Trinity's present structure.

In 1971 the hospital merged with Lutheran Homes, providing patients a greater continuum of care. In 1993 Trinity Health became the first hospital in North Dakota to recruit and employ its own physicians. Trinity Medical Group served as a new model for providing physician services in the state and established Trinity Health as an integrated health system. That assimilation was enhanced in 2001 with the purchase of UniMed Medical Center and associated facilities from Quorum Health Group, thus achieving a longtime goal in the community to consolidate Minot's healthcare facilities.

Trinity Health has evolved into the region's premier healthcare organization with facilities in several communities as well as partnerships and affiliations throughout the region. Trinity Medical Group is a comprehensive association of primary doctors, specialty physicians and health care professionals serving North Dakota and Eastern Montana. Trinity Health continues to lead the way in technology and procedural advancement with professional and support staff committed to the well being of each individual. Both Trinity Hospitals and Trinity Medical Group are accredited by The Joint Commission.

The variety and depth of Trinity's services provides customers a smooth continuum of care from a hospital stay to outpatient services; home care to long-term care. Trinity is proud of its achievements, but our pursuit of quality means we will never be satisfied. We will always be searching for a better quality of life for the communities we serve.
